Ridgeland, MS 39157

Overview:

In 2017, CMS began looking at a new payment method for nursing facilities in an effort to eliminate some of the ongoing concerns about therapy utilization cost that affect the care of residents. CMS is looking to change the Skilled Nursing Facilities’ reimbursement system from the present RUGs– based payment to the PDPM, effective October 1, 2019.

This includes five different components of care (PT, OT, SLP, NTA and Nursing) that will affect payment.

At the completion of this training, participants should be able to:

Identify what is included in the five components of the PDPM system.

Discuss how factors are calculated in each component.

Analyze how this potential change in the payment system will affect your facility.

Target Audience: This training is designed for staff that need basic PDPM training. It is a repeat of the May 15, 2019 training. If you were unable to attend the last two trainings on PDPM this one is for you.
