

Don't Get Burned on Your Next Life Safety Survey! and Emergency Planning Review Seminar

Presented by **Kenn Daily, LNHA, Life Safety Specialist**

MHCA Auditorium

Wednesday, March 6, 2024

8:30 - 4:00 p.m. CST

Compliance with Life Safety Code (LSC) requirements is one of the leading challenges for LTC facilities. With CMS's stricter implementation of the 2012 Life Safety Code more than 7 years ago, results are more expectations with more deficiencies for nursing facilities. The LSC establishes minimum criteria for the many protective features & systems as fire protection, generators, doors, building services, and maintenance activities.

The program will examine all sections of the LSC applicable to skilled nursing and provide best practice for use by healthcare organizations. Kenn will provide an update on the latest Emergency Preparedness requirements and trends as well as share real life examples such as Active Shooter. Join us to explore how these codes & regulations apply to nursing facilities and discuss the increased inspection, testing & maintenance requirements, emergency planning and common violations.

IMPORTANT EDUCATION INFORMATION

- Each registrant must register separately.
- Handouts will be emailed to you before the seminar to print & bring with you.
- MS Board of Nursing Home Administrators approval is pending for 6.0 CEs.

MEMBERS \$125 per Registrant

NON-MEMBERS \$375 per Registrant

Registrant Name _____ MS NHA License Number _____
